

HOUSE OF COMMONS

LONDON SW1A 0AA

February 2020

Dear Constituent,

Thank you for contacting me about climate change.

I am proud of the UK's world-leading role in tackling climate change and the transition to Clean Growth, with the UK being the first country to legislate to eliminate our contribution to climate change by 2050 and the fastest in the G20 to cut emissions. Since 1990, the UK has cut emissions by more than 40 per cent while growing the economy by more than two thirds, and we are a world-leader in offshore wind.

To continue this momentum, the Government has announced around £2 billion for new policies since setting the Net Zero targets and a new Prime Minister-chaired Cabinet Committee on Climate Change has been set up to ensure all arms of Government are focussed on tackling this challenge. The UK will also continue to use its position as a global leader by hosting the UN Climate Change Summit in Glasgow in 2020 and will ask international partners to match the UK's ambition.

Also our ambitious Environment Bill is being introduced to protect and improve the environment for future generations, enshrining in law environmental principles and legally-binding targets.

Thank you again for taking time to contact me.

Yours faithfully,

A handwritten signature in blue ink that reads "Chris".

**CHRIS HEATON-HARRIS MP
MEMBER OF PARLIAMENT FOR DAVENTRY**
